

## **Online Form Instructions**

- For the purpose of ECI REC online forms, when the word "signature" appears, a typed, legal name is an acceptable substitute. As long as the complete, legal name appears in each blank for which a signature was requested, the form is accurate and binding (pending accurate completion of all other form sections). It is not necessary to print and sign the form if users plan on taking advantage of the "submit by email" option provided on the final page of each form.
- Some rebates may require the actual signature of mechanical engineers. ECI REC will follow-up with members applying for those rebates as necessary.
- Please do not fill out the "office only" sections of the form. Tab past them when filling out the form.
- Completed forms and required sales receipts or invoices may also be submitted to ECI REC via fax at (319) 443-4359. Please submit both the completed form and accompanying invoice(s) using the same method—fax or email—to ensure they arrive together at ECI REC.
- Fill-able PDF forms work in most all web browsers, except <u>Firefox</u>. Suggested web browsers to use when completing the forms are: Internet Explorer, Chrome, Safari, Android, etc.

## **East-Central Iowa Rural Electric Cooperative**

## Facility Extension Agreement -- Platted Areas

Date:	Work Order
It is agreed that I will pay \$	advance aid-to-construction costs to the
Cooperative, so the Cooperative	may install electric facilities to the new platted subdivision
located in Section, Tow	nship North, Range West of the 5th P.M.
Count	y, Iowa.
A contribution in aid of construction	on for 80% of the estimated construction cost. This cost
will be estimated using automate	d staking software, which calculates actual cost from
previous extensions. The cooper	rative will invest 20% of the estimated cost.
The developer will provide easen	nents for electric facilities as approved by the Cooperative
prior to the plat being recorded. secondary laterals as required.	Easements will also be provided for street lights and
The developer will grade the cabl	e route area to within 6" of the final grade and install
roads, sewer and water lines prio	r to installation of electric facilities.
The member-consumer will be re	sponsible after initial installation by the Cooperative for
labor and material to backfill and	trench or excavation due to settling.
Applicant or Developer	East-Central Iowa REC Representative

If submitting by email, please type your legal name in place of your signature above.
